ESG

ESG Integration

ESG is integrated into each stage of our investment process. AVI has eschewed a box-ticking approach to ESG and developed a proprietary ESG monitoring system.

Engagement is central to our strategy. Our ESG monitoring system helps to highlight areas where we can actively engage with portfolio companies to build resilience to sustainability risks, promote responsible attitudes, and enhance sustainable corporate value.

For more information, AVI's ESG Report can be accessed on its website [here](#)

Article 6

This Fund has an Article 6 classification within the meaning of the Sustainable Finance Disclosure Regulation (SFDR). Engagement is central to delivering long term returns, and we integrate environmental, social and governance (ESG) factors into our risk management on an ongoing basis. As part of our engagement process, we monitor the climate-related risks of our portfolio companies within a bespoke system developed for AVI. However, the Fund does not have a sustainability objective.
